

RAM Rental Service with Mini Excavator

Art. no.: 02546

Available January 2025

Construction equipment rental companies provide important support for companies and private individuals if a machine is needed on a construction site at short notice. Despite the presence of a large number of BRUDER construction machines, sometimes a small excavator is still lacking at the sandpit construction site. The new RAM Power Wagon with trailer and BRUDER mini excavator are now available to help out. The RAM's durability and traction is impressive. Just like the real thing, the toy features a crew cab with four doors. All doors open to accommodate four bworld figures. This model at a scale of 1:16 features suspension on both axles to provide ride comfort and off-road capability. In this context, the front axle can be steered using the included steering wheel extension. The tailgate opens to transport loads and the loading area provides space for BRUDER pallets, pallet cages or straw bales. The included trailer has a support for the tailgate and the platform can be tilted via a lever for easy loading. The included BRUDER mini excavator is fully functional, the bucket is detachable and the plough blade is adjustable. The mini excavator boom can be angled sideways. In addition, the mini excavator's cab can be rotated 360° and it is supplied with modern rubber tracks. This great set can be supplemented with the AUSA Minidumper (item no.02449), the Cat® compact articulated wheel loader (item no. 02485) and many other great BRUDER construction vehicles.

Cab:

- Clear-glass headlights at the front
- Cab made from transparent, high-quality plastic
- Doors can be opened

Automotive body:

- Additional steering column can be stored in the vehicle underbody
- Space for four bworld figures
- Tailgate can be opened

Contents:

- Trailer with contemporary design and folding platform
- BRUDER mini excavator

Chassis:

- Wheels in contemporary SUV design
- Spring-loaded front (steerable) and rear axles with 4 steel springs
- Includes removable tow coupling

General information:

- Important! Unsuitable for children under 36 months. Risk of suffocation from small parts that can be swallowed.
- Recommended age: suitable from 4 years upwards for playing indoors and outdoors
- Manufactured from high-quality plastics such as ABS
- Compatible with figure
- Scale 1:16

MB Sprinter Camper with driver

Art. no.: 02684

Available January 2025

Camping is absolutely on trend. Mobile home registrations across Europe reached new heights in 2018 and 2019. This exciting leisure theme can now be experienced by young campers at BRUDER. The new MB Sprinter is also extremely successful as a base model for camper vans. The BRUDER version of the new MB Sprinter camper has an impressive level of detail and versatility. The driver's cab door and rear doors open. Here, the supplied bworld figure has access to the integrated double bed and large storage compartment. A particular highlight is the newly developed sliding door on the co-driver's side, which provides access to the kitchen unit. The camper van has an extendable awning for sunny days, as well as stylish camping furniture and tableware. Great accessories for the camper are the bworld Kayak (item no. 63155), which can be transported on the roof, as well as the Ducati Desert Sled (item no. 63051)

Cab:

- Clear-glass headlights at the front
- Cab windows made from transparent and shatter-proof plastic
- Doors can be opened

Vehicle design:

- Sliding door
- 2 rear doors
- Living unit with double bed and stove
- Retractable sun awning

Content:

- bworld camper figure
- Camping set with chairs, table and tableware

General information:

- Recommended age: suitable from 4 years for playing indoors and outdoors
- Manufactured from high-quality plastics, such as ABS
- Scale 1:16

Claas Axion 950 with Snow Chains and Plough Blade

Art. no.: 03018

Available January 2025

Prepared for winter! The Axion 950 boasts comprehensive innovations in function, controls and output. In combination with the new BRUDER snow chains for that extra grip on ice and snow and the height-adjustable and pivoting plough blade, clearing even large amounts of snow from the roads becomes child's play. The driver's cab is fully glazed and doors as well as the bonnet open to lend that realistic feeling when playing. The steering extension makes it easy to steer the tractor from the outside. The vehicle is compatible with all Professional series trailers thanks to the adjustable rear coupling.

Cab:

- Cab windows made from transparent and shatter-proof plastic

Automotive body:

- Tow coupling with height-adjustable lifting gear
- Engine bonnet can be opened

Chassis:

- Detachable tracks

Contents:

- Height-adjustable and pivoting plough blade

Movement/function:

- Additional steering rod allows steering through the sliding tractor roof

General information:

- Important! Unsuitable for children under 36 months. Risk of suffocation from small parts that can be swallowed.
- Recommended age: suitable from 4 years upwards for playing indoors and outdoors
- Manufactured from high-quality plastics such as ABS
- Made by Bruder
- Scale 1:16

ROADMAX Tractor with Forwarding Trailer and 3 tree trunks

Art. no.: 03453

Available January 2025

The ROADMAX brand is very popular with our youngest customers. For this reason, it is only logical to expand other theme worlds with ROADMAX items. With the new ROADMAX tractor with forwarding trailer and tree trunks, BRUDER presents another great vehicle combination in the forestry theme world for children from 2 years of age. The model has a detailed cab and large, tractor-typical tread tyres. For even more fun, this combination includes a working forwarding trailer with 3 logs and a tiltable loading area.

There are other ROADMAX items in BRUDER's extensive range to match this tractor that are also suitable for children from 2 years of age.

Automotive body:

- Tipping trailer

Contents:

- Includes 3 tree trunks

General information:

- Recommended age: suitable from 2 years upwards for playing indoors and outdoors
- Manufactured from high-quality plastics such as ABS
- Made by Bruder

bworld Car Service Centre + BRUDER Roadster

Art. no.: 62112

Available January 2025

bworld is the toy world of BRUDER. It is made up of moving figures, animals, accessories and, most recently, also themed sets, and is assigned to the well-known BRUDER categories. Whether as a driver, rider, water sports enthusiast, or in the hospital ward or motorcycle workshop, bworld items provide hours of fun on their own or make the perfect addition to the detailed vehicles.

With bworld themed sets you can dive even deeper into the world of BRUDER. The new bworld Car Service Centre is the port of call for a number of BRUDER vehicles in need of a service. The enclosed mechanic can inspect vehicles on the completely height-adjustable vehicle lift and subsequently test the brakes on the installed test equipment. The result is displayed on the monitor straight away. Smaller repairs can be immediately taken care of using the included tools and the tyre pressure is checked in a final step.

The BRUDER roadster is included in this great set. The vehicle has already been booked in for a service. Spare wheels are also included and thanks to the roadster's new wheel changing system this is taken care of in no time.

Contents:

- Height-adjustable vehicle lift with brake test
- bworld roadster
- bworld mechanic
- Complete set of replacement wheels
- Mechanic with air pressure gauge
- Tools with tool box

General information:

- Important! Unsuitable for children under 36 months. Risk of suffocation from small parts that can be swallowed.
- Recommended age: suitable from 4 years upwards for playing indoors and outdoors
- Manufactured from high-quality plastics such as ABS
- Scale 1:16

Accessories: Light & Sound Module for Trucks

Art. no.: 02803

Available February 2025

The new light and sound module for trucks features an impressive state-of-the-art design and enhances all BRUDER trucks.

Four different functional buttons enable the reproduction of engine sounds, police sirens as well as fire service sirens and even a yelp signal for a duration of approximately 20 seconds. The yelp signal is particularly suitable in heavy traffic and at junctions to attract even more attention when the blues and twos are switched on in emergency service vehicles. The light function is activated simultaneously with the corresponding sound. This model allows fitting two blue caps (e.g. police), two orange caps (e.g. service vehicles) and one red cap (e.g. US emergency services) in any combination.

The light and sound module is extremely versatile thanks to the BRUDER standard connectors. The scope of delivery also includes an adapter to enable use of the light and sound module on any truck with a roof hatch. The packaging is designed so you can test the module before making the purchase

Contents:

- Batteries included (2xAAA/R03)
- Adapter for truck roof hatches

Movement/function:

- Functional buttons: 1. Engine sound, 2. Police siren, 3. Fire service siren, 4. Yelp signal
- Standard connector for attachment
- Automatic deactivation after approximately 20 seconds
- Once again press the corresponding button to immediately switch the respective function off

General information:

- Important! Unsuitable for children under 36 months. Risk of suffocation from small parts that can be swallowed.
- Recommended age: suitable from 3 years upwards for playing indoors and outdoors
- Received Spiel Gut Award; for more information, visit spielgut.org
- Manufactured from high-quality plastics such as ABS
- Made by Bruder
- Scale 1:16

MACK Granite Heavy Tow Truck with Light and Sound module

Art. no.: 02831

Available March 2025

Recovery and towing trucks for commercial vehicles and trucks are among the most spectacular vehicles that children can discover on our roads. And the superior power and technology of these vehicles is impressive. At BRUDER, children can now discover and recreate these fascinating qualities on the new MACK Granite Heavy Tow Truck. The wheel lift can be folded down and accommodates the front wheels of the vehicle to be towed. Behind one of the many opening flaps is the height adjustment of the main arm, which is used to raise the main arm and the vehicle. A cable winch is located at the tip of the telescopic main arm. The supplied adapter can be attached to the bumper of a vehicle to be recovered, and a vehicle that has been involved in accident be recovered and towed to the wheel lift with the cable winch. The MACK's detailed cab has doors that can be opened and a hinged bonnet. To complement this versatile truck, the new state-of-the-art light & sound module for trucks is already installed. The RAM Service Truck (item no. 02509) and the Mercedes Benz Sprinter Car Transporter (item no. 02675) from the wide range of BRUDER products supplement this new highlight in the BRUDER range.

Cab:

- Folding outside mirrors
- Doors can be opened
- Engine bonnet can be opened

Automotive body:

- Side flaps in body that can be opened
- Telescopic and height-adjustable main arm
- Cable winch on main arm for recovering vehicles
- Folding wheel lift

Contents:

- Includes new light and sound module for trucks (item no. 02803)

General information:

- Important! Unsuitable for children under 36 months. Risk of suffocation from small parts that can be swallowed.
- Recommended age: suitable from 4 years upwards for playing indoors and outdoors
- Manufactured from high-quality plastics such as ABS
- Made by Bruder
- Scale 1:16

Scania Super 560R Heavy Tow Truck with Light & Sound Module

Art. no.: 03553

Available March 2025

Recovery and towing trucks for commercial vehicles and trucks are among the most spectacular vehicles that children can discover on our roads. And the superior power and technology of these vehicles is impressive. At BRUDER, children can now discover and recreate these fascinating features on the new Scania Super 560R Heavy Tow Truck. The wheel lift can be folded down and accommodates the front wheels of the vehicle to be towed. Behind one of the many opening flaps, the main arm height adjustment is situated, with which the main arm including the vehicle can be raised. A cable winch is located at the tip of the telescopic main arm. The supplied adapter can be attached to the bumper of a vehicle to be recovered, and a vehicle that has been involved in accident be recovered and towed to the wheel lift with the cable winch.

The detailed cab of the Scania has opening doors and the new state-of-the-art light and sound module for trucks is already installed to complement this versatile truck. The RAM Service Truck (item no. 02509) and the Mercedes Benz Sprinter Car Transporter (item no. 02675) from the wide range of BRUDER products supplement this new highlight in the BRUDER range.

Cab:

- Folding outside mirrors
- Doors can be opened

Automotive body:

- Storage space accessible via the opening side flaps in the body
- Telescopic and height-adjustable main arm
- Cable winch on main arm for recovering vehicles
- Folding wheel lift

Contents:

- Includes new light and sound module for trucks (item no. 02803)

General information:

- Important! Unsuitable for children under 36 months. Risk of suffocation from small parts that can be swallowed.

New Holland T5.120

Art. no.: 02184

Available May 2025

The new New Holland T5 has been designed as a versatile all-rounder for modern farms. Numerous equipment variants, excellent ride comfort and effective fuel consumption make it a reliable partner for use under all conditions. This compact yet very powerful tractor is the latest addition to BRUDER's extensive fleet of tractors, which is well-known for its true-to-life details. Of course, this tractor also shares features typical of its stablemates, such as the off-road front axle or the additional drag link. This tractor can also be combined with almost all agricultural attachments from the BRUDER range.

Automotive body:

- detachable front weight
- Receiver for front loader
- Standard front and rear coupling

Chassis:

- steerable and off-road front axle
- Tread tires

Movement/function:

- Additional steering rod allows steering through the sliding tractor roof

General information:

- Important! Unsuitable for children under 36 months. Risk of suffocation from small parts.
- Recommended age: suitable from 3 years upwards for playing indoors and outdoors
- manufactured from high-quality plastics such as ABS
- Compatible with figure
- Scale 1:16

New Holland T5.120 with slip-on front loader, dump box and forks

Art. no.: 02187

Available May 2025

The new New Holland T5 has been designed as a versatile all-rounder for modern farms. Numerous equipment variants, excellent ride comfort and effective fuel consumption make it a reliable partner for use under all conditions. This compact yet very powerful tractor is the latest addition to BRUDER's extensive fleet of tractors, which is well-known for its true-to-life details. Of course, this tractor also shares features typical of its stablemates, such as the off-road front axle or the additional drag link. This tractor can also be combined with almost all agricultural attachments from the BRUDER range. The new BRUDER dump box with forks is already included in this set, which means even more play value.

Horsch Single Seeder Maestro 8CX

Art. no.: 02037

Available June 2025

Horsch is a leader in the development of solutions for modern farming. The single grain seeders of the Maestro series are a very successful product field. These are used for sowing a wide range of crops, such as corn, sunflower, sugarbeet, rapeseed, soybeans and other beans.

This very exciting seeder is a new addition to BRUDER's extensive agricultural range. For road transport, the seeder attachment can be folded in and folded out again in field operation. The integrated tank can be filled with and closed with a cap. The trailer is emptied through a sliding outlet valve at the base of the tank. The BRUDER 3000 and 4000 series tractors are the perfect tractor for this impressive seeder.

Item characteristics:

- Many moving parts on the circular spike harrows and seed units
- Tank contents can be emptied by means of slide valve
- Flexible hose elements on the seed units
- Realistic folding up of the seed units when driving on the road
- Flaps that can be opened

General information:

- Important! Unsuitable for children under 36 months. Risk of suffocation from small parts that can be swallowed.
- Recommended age: suitable from 4 years upwards for playing indoors and outdoors
- Manufactured from high-quality plastics such as ABS
- Made by Bruder

Volvo Compact Excavator ECR40

Art. no.: 02465

Available July 2025

The Volvo mini excavator is easy to use and compact with a short swing radius. Despite its compact body dimensions, it is suitable for a wide range of applications. The additional sideways swiveling excavator arm makes it even more flexible in use. Thanks to its tracked chassis, it can also cope with challenging terrain, even in the sandpit. The chassis blade gives the vehicle more stability on loose ground, making it more suitable for simple levelling activities.

Like the original, the cab is glazed and equipped with an opening door, while the excavator body can be rotated 360° - just like the real thing.

Cab:

- Driver's cab can turn by 360°
- Cab windows made from transparent and shatter-proof plastic

Vehicle design:

- Height-adjustable plough blade

Chassis:

- Rubber tracks with new profile

Movement/function:

- The excavator arm can be used way beneath the level of the vehicle
- Fully functioning excavator arm

General information:

- Important! Unsuitable for children under 36 months. Risk of suffocation from small parts.
- Recommended age: suitable from 3 years upwards for playing indoors and outdoors
- manufactured from high-quality plastics such as ABS
- Compatible with figure
- Made by Bruder
- Scale 1:16

ROADMAX Tipper Truck

Art. no.: 03470

Available September 2025

The BRUDER construction vehicle theme world is extremely popular and the premium quality toy vehicles feature comprehensive functions. This also applies in particular to our smallest customers. With the new ROADMAX tipper truck, BRUDER offers another great vehicle for children from 2 years of age. The tipper truck is equipped with a large, fully functional tipping trough for use in the sandpit.

To match this fantastic tipper truck, the comprehensive BRUDER range also includes the ROADMAX articulated wheel loader (item no. 03412) and the ROADMAX mobile excavator (item no. 03413), which are also suitable for children from 2 years of age.

Automotive body:

- functioning tipping trough

Chassis:

- Tread tires

General information:

- Recommended age: suitable from 2 years upwards for playing indoors and outdoors
- Manufactured from high-quality plastics such as ABS
- Made by Bruder
