

DEUTZ-FAHR 8280 TTV Warrior

Art. no.: 03162

Available January 2026

The 8280 TTV from DEUTZ-FAHR: Where power meets precision. The 8280 TTV is a reliable and powerful working machine with the perfect technology mix for professional farmers. With an impressive 287 hp, this tractor is up to any challenge. The exclusive black variant of this tractor, the Warrior, is particularly impressive when it comes to design. And in terms of functionality and quality, the new BRUDER model at a scale of 1:16 is in keeping with the company's motto: "just like the real thing". The cab is fully glazed and features easy-to-open doors. The folding bonnet provides a view of the engine. Easy manoeuvrability is achieved thanks to the installed oscillating axle as well as the steering extension that can be inserted through the sliding roof. A slip-on frontloader (item no. 03333) can be mounted to extend this model. The detachable wheels add to the fun.

Enhance this great tractor's value even more by adding the Workshop figure set (item no. 62100). It goes without saying that all BRUDER agricultural trailers and equipment are compatible with this little black gem.

Cab

- Cab windows made from transparent and shatter-proof plastic
- Engine bonnet can be opened
- Doors can be opened

Vehicle design

- steerable with additional drag link through the roof hatch
- detachable front weight
- Tow coupling with height-adjustable lifting gear
- Receiver for front loader

Chassis

- off-road rear axle
- steerable and off-road front axle
- Tread tyres
- Detachable wheels

General information

- Recommended age: suitable from 3 years upwards for playing indoors and outdoors
- Manufactured from high-quality plastics such as ABS
- Scale 1:16
- Compatible with figure

MAN TGA Skip Loader

Art. no.: 02741

Available January 2026

Skips can be found on almost every construction site. They make it possible to load rubble, soil and other materials without the entire truck having to wait.

For our little construction workers, the MAN TGA skip loader is available in modern colours as another vehicle in the commercial vehicles theme world. The skip can be loaded and unloaded with a single hand movement.

Once the chains are removed, the skip can remain in place and the truck is free for other trips. Supports on the truck can be extended for better stability during loading and unloading.

The familiar MAN TGA cab can be tilted and provides a view of the engine block.

Cab

- The tilting cab of the MAN TGA gives access to the engine block
- Fold-out cab mirrors

Vehicle design

- Truck has a lockable and removable skip
- Extendible supports

Movement/function

- Skip arms can be moved via sliding function

General information

- Important! Unsuitable for children under 36 months. Risk of suffocation from small parts.
- Recommended age: suitable from 3 years upwards for playing indoors and outdoors
- Manufactured from high-quality plastics such as ABS
- Made by Bruder
- Scale 1:16

Round bale collector with 3 round bales

Art. no.: 02204

Available January 2026

In modern agriculture, efficiency is a crucial factor in the field. The BRUDER round bale collector allows young farmers to experience these benefits through play. The trailer can be coupled behind a tractor from the 1000 to 3000 series, or directly behind a round baler with the BRUDER drawbar coupling. Thanks to the drawbar offset to the side, the round bales can be positioned directly on the pick-up mechanism and then simply lifted onto the loading area.

To unload, simply open the locks and tilt the loading area.

The extensive BRUDER range in the agricultural category includes numerous tractors from the 1000 to 3000 series, as well as balers with the typical BRUDER drawbar coupling.

- Drawbar offset to the side
- Drawbar with support foot
- Hay bale pick-up mechanism
- Tilting platform for unloading

General information

- Important! Unsuitable for children under 36 months. Risk of suffocation from small parts.
- Recommended age: suitable from 3 years upwards for playing indoors and outdoors
- Manufactured from high-quality plastics such as ABS
- Made by Bruder
- Scale 1:16

Accessory: Hay rack with fences and trough

Art. no.: 62612

Available February 2026

For agriculture fans, there is an expansion set for the already familiar cows, bulls and horses. The hay rack with fences and trough is a modern outdoor facility for these animals and the ideal addition to the existing bworld farming set (item no. 62611). The hay rack can be filled using the slip-on frontloader and bale gripper from Bruder's extensive agricultural range. The Schäffer compact loader with bale gripper and round bales (item no. 02192) is also a perfect partner for this modern set.

Contents

- Hay rack with hay bales
- 10 fence elements and gates
- Cow with feed trough

General information

- Recommended age: suitable from 3 years upwards for playing indoors and outdoors
- Manufactured from high-quality plastics such as ABS
- Scale 1:16
- Compatible with figure

MB Sprinter Police Special Forces

Art. no.: 02685

Available March 2026

The MB Sprinter provides almost unlimited application options with its large number of variants. This vehicle is also popular with the Police and sees regular use in a wide range of applications. When operations become critical, the Police Special Forces are called in to provide reinforcement and resolve the situation. This special unit is now providing reinforcement to BRUDER's emergency services too. With special equipment, the included police officer can provide the necessary support for colleagues. Arrested suspects can also be taken into custody in a separate cell if necessary. The bworld Police Station (item no. 62732) and the Police Range Rover Velar (item no. 02890) are perfect additions to this extensively equipped vehicle.

Cab

- Clear-glass headlights at the front
- Cab windows made from transparent and shatter-proof plastic
- Doors can be opened

Vehicle design

- Sliding doors
- 2 rear doors
- Removable and convertible bench seats and table
- Bench seat and partition grille to luggage compartment

Content

- Special Forces police officer with extensive equipment (item no. 62151)
- Includes light and sound module (item no. 02802)

General information

- Important! Unsuitable for children under 36 months. Risk of suffocation from small parts that can be swallowed.
- Recommended age: suitable from 4 years upwards for playing indoors and outdoors
- Manufactured from high-quality plastics such as ABS
- Scale 1:16
- Compatible with figure

bworld Figure Police Special Forces

Art. no.: 62151

Available March 2026

When police operations become critical, the Police Special Forces are called in to provide reinforcement and resolve the situation. This special unit is now providing reinforcement to BRUDER's emergency services too. With special equipment, including a protective shield. The bworld Police Station (item no. 62732) and the MB Sprinter Police Special Forces (item no. 02685) are perfect additions to this extensively equipped police officer.

Contents

- Protective shield
- Police equipment
- Gloves
- Helmet with sight

Movement/function

- 3-dimensional moveable limbs and head
- Hands can grasp objects or hold onto vehicles

General information

- Important! Unsuitable for children under 36 months. Risk of suffocation from small parts that can be swallowed.
- Recommended age: suitable from 4 years upwards for playing indoors and outdoors
- Received Spiel Gut Award; for more information, visit spielgut.org
- Manufactured from high-quality plastics such as ABS
- Made by Bruder

ROADMAX Fire engine with ladder

Art. no.: 03472

Available April 2026

The ROADMAX brand is very popular with our youngest customers. They adore these vehicles for their outstanding stability and age-appropriate functions. The ROADMAX Fire Truck is now available to discover as an addition to the ROADMAX range. This detailed toy truck is ideal for children aged 2 years and older and offers many hours of fun. The fire truck is equipped with a turntable ladder that young rescuers can move into a variety of positions. When extended, the ladder reaches an impressive height. Additionally, the truck is fitted with sturdy supports that provide a stable base while the children embark on their adventures. ROADMAX also offers a variety of other items that are a great match for this fantastic fire truck.

Vehicle design

- Turntable ladder
- Extendible ladder
- Flaps that can be opened

Chassis

- Tread tyres

General information

- Recommended age: suitable from 2 years upwards for playing indoors and outdoors
- Manufactured from high-quality plastics such as ABS

ROADMAX Crane truck

Art. no.: 03471

Available April 2026

The ROADMAX Crane Truck is now available to discover as an addition to the ROADMAX range. The perfect toy for little construction workers and crane enthusiasts! This robust crane truck is specifically designed for children aged 2 years and older and offers many hours of fun. It has a swivelling crane body that allows children to move the crane into different positions. The extendible crane boom can be easily extended and shortened to reach different heights and ranges. Additionally, the crane truck is fitted with sturdy supports that provide a stable base while the little construction workers play on their construction sites. ROADMAX also offers a variety of other items that are a great match for this fantastic crane truck.

Vehicle design

- Rotating crane body
- Extendible crane boom
- Flaps that can be opened

Chassis

- Tread tyres

General information

- Recommended age: suitable from 2 years upwards for playing indoors and outdoors
- Manufactured from high-quality plastics such as ABS

Fendt Rotana 180V round baler

Art. no.: 02038

Available April 2026

Fendt Rotana balers are an essential tool for modern agricultural operations, delivering perfect results for silage, hay and straw, and serve as a valuable enhancement to Fendt tractors and harvesting machinery. Like its large counterpart, the Fendt Rotana 180V features a hinged hay pick-up and is driven by roller feeders. The side cover and tailgate can be opened. An inserted round bale is automatically ejected by actuating the depository rocker. One round bale is included in the scope of delivery with tread tyres completing the overall appearance.

Vehicle design

- Drawbar with support foot
- Hinged hay pick-up driven by roller feeders
- Opening side cover and rear press
- Automatic bale release upon operating the depository rocker

Contents

- round bales included

General information

- Important! Unsuitable for children under 36 months. Risk of suffocation from small parts.
- Recommended age: suitable from 3 years upwards for playing indoors and outdoors
- Manufactured from high-quality plastics such as ABS
- Made by Bruder
- Scale 1:16

Massey Ferguson round baler RB 4180V

Art. no.: 02039

Available April 2026

Whether it's silage, hay, or straw, farmers always need cost-effective and flexible solutions for producing high-quality, dense bales that are easy to transport and take up minimal storage space. These solutions are exactly what Massey Ferguson balers offer.

Like its large counterpart, the MF RB 4180V features a hinged hay pick-up and is driven by roller feeders. The side cover and tailgate can be opened. An inserted round bale is automatically ejected by actuating the depository rocker. One round bale is included in the scope of delivery with tread tyres completing the overall appearance. The numerous tractors from the 1000 to 3000 series are part of the extensive BRUDER range in the agricultural category.

Vehicle design

- Drawbar with support foot
- Hinged hay pick-up driven by roller feeders
- Opening side cover and rear press
- Automatic bale release upon operating the depository rocker

Contents

- round bales included

General information

- Important! Unsuitable for children under 36 months. Risk of suffocation from small parts.
- Recommended age: suitable from 3 years upwards for playing indoors and outdoors
- Manufactured from high-quality plastics such as ABS
- Made by Bruder
- Scale 1:16

Accessory: petrol station and car wash

Art. no.: 62113

Available May 2026

Nothing works without fuel, and that holds true in the BRUDER world! The bworld filling station and car wash is now available to ensure that the numerous vehicles remain ready for use at all times. It is the central point of contact for all BRUDER vehicles, whether with combustion engine or electric drive.

The modern fuel pump features flexible hoses and detailed controls that make refuelling all the more realistic. Alongside the traditional fuel types, there is also a charging station for electric vehicles, ensuring that modern electric vehicles are well catered for in the BRUDER world.

The fully functional car wash with integrated water tank takes care of vehicle care. By filling the tank and actuating the manual air pump, pressure is built up so that real water can be released via the on/off switch. All BRUDER vehicles are easy to clean with the adjustable spray arm, for shiny results like in a real car wash! The bworld Car service (item no. 62110) and the MAN TGS tank truck (item no. 03775) from BRUDER's wide range are particularly suitable.

Contents

- 1 x fuel pump
- 1 x fully functional car wash with water tank and pump
- 1 x charging station for electric vehicles

Movement/function

- 3-dimensional moveable limbs and head
- Hands can grasp objects or hold onto vehicles

General information

- Important! Unsuitable for children under 36 months. Risk of suffocation from small parts.
- Manufactured from high-quality plastics such as ABS
- Made by Bruder
- Scale 1:16

Accessory: Traffic safety set with traffic lights

Art. no.: 62009

Available May 2026

The new traffic safety set from BRUDER ensures safety on play streets and construction sites. With traffic lights, warning posts and signs, children can recreate realistic traffic and construction site situations. The set playfully promotes traffic education and an understanding of construction sites and road traffic. Ideally, children can use it as an addition to BRUDER construction vehicles or for their own traffic and construction site scenarios. The construction site set is bworld-compatible and consists of a simple connector system that can be used flexibly and expanded as required.

Contents

- 2 x construction site traffic lights
- 4 x barrier fences
- 4 x warning posts
- 2 x traffic signs
- 8 x construction site lights

General information

- Important! Unsuitable for children under 36 months. Risk of suffocation from small parts.
- Manufactured from high-quality plastics such as ABS
- Made by Bruder
- Scale 1:16

VarioCar Green area irrigation

Art. no.: 02692

Available July 2026

The work done in public spaces is varied and also takes place throughout the year. In order to meet these requirements, cities and municipalities need flexible, yet powerful municipal vehicles. The versatile BRUDER VarioCar is now expanding the commercial vehicle category with 4 different expansion stages. With the BRUDER VarioCar, children can learn how to water green areas and parks efficiently while playing in their own garden during the summer months. For this purpose, the VarioCar is equipped with a fillable tank with a pump at the rear. A hose system directs water to the height-adjustable sprinkler arm that can be moved from side to side. Just move the lever slightly on the tank and the water is distributed to the plants. This fantastic vehicle is compatible with both the municipal MB Sprinters from BRUDER and, of course, the other three versions of the VarioCar.

Vehicle design

- Articulated steering
- Water tank can be filled
- Fully functional pump
- Movable spray head

General information

- Important! Unsuitable for children under 36 months. Risk of suffocation from small parts that can be swallowed.
- Recommended age: suitable from 4 years upwards for playing indoors and outdoors
- Manufactured from high-quality plastics such as ABS
- Made by Bruder
- Scale 1:16

VarioCar traffic safety

Art. no.: 02693

Available August 2026

Smaller construction sites for repairing walkways and cycle paths can be easily managed with the Bruder VarioCar with platform and road safety trailer.

The vehicle is equipped with a fold-out sustainer which makes it easier to load and unload materials. The traffic safety trailer consists of an extensive traffic safety set comprising of traffic lights, warning posts, lights and traffic signs. This allows small site managers to ensure that traffic around their construction site runs smoothly.

This fantastic vehicle is compatible with both the municipal MB Sprinters from BRUDER and, of course, the other three versions of the VarioCar.

Vehicle design

- Articulated steering
- Fold-out sustainer

Contents

- Trailer incl. traffic safety set (item no. 62009)

General information

- Important! Unsuitable for children under 36 months. Risk of suffocation from small parts that can be swallowed.
- Recommended age: suitable from 4 years upwards for playing indoors and outdoors
- Manufactured from high-quality plastics such as ABS
- Made by Bruder
- Scale 1:16

VarioCar Street sweeper

Art. no.: 02691

Available August 2026

The VarioCar street cleaner version can be used on all walkways and bicycle paths to quickly remove any dirt. The efficient vehicle can adjust the height and width of the brushes to quickly adapt to local conditions. To empty the waste container, it can be set up and opened with the tailgate. Thanks to articulated steering, the VarioCar is also exceptionally agile. With this wide range of functions, children can playfully experience the wide variety of work done by the municipal services. This fantastic vehicle is compatible with both the municipal MB Sprinters from BRUDER and, of course, the other three versions of the VarioCar.

Vehicle design

- Articulated steering
- Height-adjustable and swivelling brushes
- Tilttable waste container
- Tailgate

General information

- Important! Unsuitable for children under 36 months. Risk of suffocation from small parts that can be swallowed.
- Recommended age: suitable from 4 years upwards for playing indoors and outdoors
- Manufactured from high-quality plastics such as ABS
- Made by Bruder
- Scale 1:16

VarioCar Winter service

Art. no.: 02690

Available August 2026

The work done in public spaces is varied and also takes place throughout the year. In order to meet these requirements, cities and municipalities need flexible, yet powerful municipal vehicles. The versatile BRUDER VarioCar is now expanding the commercial vehicle category with 4 different expansion stages. As soon as it gets frosty and winter begins, walkways and cycle paths need to be cleared and gritted quickly and efficiently. With the agile and efficient Winter service VarioCar, children can pretend to clear snow and spread grit on walkways, allowing their imagination to run wild. The vehicle is equipped with a fully functional plough blade that can be easily adjusted to clear snow from roads and paths. The fully functional spreading unit allows children to realistically simulate the spreading of grit. The body can be opened and filled with sand. Articulated steering makes the VarioCar extremely agile. This fantastic vehicle is compatible with both the other snow clearing vehicles from BRUDER and, of course, the other three versions of the VarioCar.

Vehicle design

- Articulated steering
- Adjustable plough blade
- Fillable grit tank
- Gritter rotates by 180° (for transport and cleaning function)
- Fully functional spreader mechanism

General information

- Important! Unsuitable for children under 36 months. Risk of suffocation from small parts that can be swallowed.
- Recommended age: suitable from 4 years upwards for playing indoors and outdoors
- Manufactured from high-quality plastics such as ABS
- Made by Bruder
- Scale 1:16
